JUST IN THE SAME OLD WAY.
The battle is fought and the world moves on.
Just in the same old way.
We wake in the morn with a lazy yawn,
Just in the same old way.
The sun yet rises away back East,
The poor ones starve and the rich ones feast,
The rural wife sets her buckwheat yeast,
Just in the same old way.

The lovers stroll 'neath the same old moon,
Just in the same old way,
Or sit in a darkened room and croon,
Just in the same old way.
The farmer gathers his ripened corn,
The old maid sighs and the girls hum,
And folks are wedded and babies born,
Just in the same old way.

The brooks and the rivers downward run,
Just in the same old way,
The breeze and the politicians blow,
Just in the same old way.
The farm kid fattens on cornmeal mush,
The old maid sighs and the girls hum,
And the flames for the bargain counters burn,
Just in the same old way.

The sad ones weep and the glad rejoice,
Just in the same old way,
The ragman uses the same old voice,
Just in the same old way.
The justice serves his Kentucky justice
And sends men home with the lodge secures.

To wives in waiting, who raise the dead,
Just in the same old way,
The fight is o'er and the old earth spins,
Just in the same old way.
The Christian prays and the sinner cries,
Just in the same old way.

Just in the same old way.
We have our joy and we have our care,The old flag waves the same old air,
Just in the same old way.

TWO STATES.

The Kentucky and Ohio Tobacco Fair.

The map presented shows the territory embraced in the Tobacco Fair awards of last year. Owing to many requests from the counties in Central Kentucky, the territory was extended so as to embrace the two states. Mason county

does not claim better tobacco than any other county. She is willing to enter into friendly rivalry with any section of either Kentucky or Ohio. The citizens of Maysville and Mason county extend a most cordial invitation to all farmers of both states, and the dealers and manufacturers of tobacco, to spend Washington's Birthday with them.

Farmers should not overlook the liberal premiums on corn, wheat and potatoes. Take a day for pleasure and come to Maysville February 22d, 1901. Excursion rates on all railroads and bus lines, and a special train out at p. m. on L. and N. Railroad.

"An inexpensive luxury" is the only term that will correctly define the engagement of John A. Himmelstein's Imperial Stock Company at the Opera-house next week. The class of plays to be produced is a most commendable one, and it is safe to say that the public at large will be quick to appreciate the result of the enterprise shown in giving such plays at such prices.

Remnants are interesting merchandise. Because best and most desirable goods are so often sold down to short ends and you pick up lengths of the same at HALF PRICE. Best in the sense of good quality and desirable patterns. Prices of 1/2 to 3/4 yards. Enough for a child's dress or a length sufficient for a woman's skirt, sometimes a little less than half the retail price, here and there a piece reduced not quite half. But the ticket on each tells the exact story. Black and colors. Plain and fancies.

Flannelette Gowns.

Pretty enough for bedroom wrappers, just warm enough for winter comfort—Trim pretty effects. Narrow stripes in dainty plaids and blues. "Hubbard" styles with yokes agglomer in neat, handsome braids. Some collars and sleeves trimmed in hermitian style with lace insertion and braid on yoke. Many of the gowns have been selling for \$1. All offered now for 75c. Very little new line, but ten minutes work, will convert these pretty gowns into useful bath robes.

REMEMBER

The learned lawyers who are experts at proving either side of a case in which they are employed may argue all they please against the "constitutional" of the Constitution following the Flag; but it looks to an agnostic layman that every state and every island over which Old Glory floats in authority is just as surely under the protection of the Constitution as it is under the protection of the Flag. The Flag is the symbol of the Government, and the Constitution is the foundation of the Government itself.

THE MEN MUST GO NOW!

Ladies of an Ohio City Will Take off Their Hats in Church.

The women of one of the Churches in Findlay, O., have sprung another snare upon their husbands to get them to go to Church. This time they have promised to take their hats off, so the men can see the pulpit and choir. The delinquent men members will once again become faithful attendants.

At a big meeting the "Social Daughters" of the First M. E. Church, an organization of young ladies and young married women that include many of the wealthiest families in the city, passed a set of vigorous resolutions that each member of the society would henceforth remove her hat whenever entering Church, "in order that gentlemen will attend Church, being then able to see the Minister and the choir."

In conversation Mrs. G. C. Moyer reiterated that the organization of which she is a prominent member was soberly in earnest. "Men do not come, and when we ask them why, they say they cannot see over the immense hats worn by the ladies. We will give them a chance to prove that that is the reason."

After Longfellow's "What?

Usually a morning gown and a general feeling of weakness. Peter's Balm and Tar is guaranteed to cure the "gritty cough" and make you strong and well. 2 Jaz. Wood & Son and Armstrong & Co.

WOULD DO AS HE SAID.

Captain Weston Would Carry Out the Threat to Kick a Hatter.

Gen. John F. Weston, the new commissary general of the army, had a long and honorable record as a soldier. While he has always preferred the fighting branch of the service, he has accepted willingly the new post to which he has been called, says the Chicago Chronicle.

When Gen. Weston was a captain of the line he purchased a military cap, value \$2.00, from a hatter in New York with whom he had an account. The bill misarranged, and the hatter sent a second bill with a note to Gen. Weston, then at a western army post, saying that unless it was promptly paid the matter would be brought to the attention of the secretary of war. This made Gen. Weston angry, and he sent a spirited note to the hatter in which he said: "If ever happen to be in the vicinity of Broadway, New York, I shall do myself the honor of dropping in at your shop and kicking you from one end of it to the other." The hatter wrote an indignant letter to the secretary of war, inclosing Gen. Weston's note and asking the secretary for his opinion of such language or conduct on the part of an army officer. The secretary of war, and his answer read something like this:

"Dear Sir: I have received your letter explaining an insulting language used toward you by Capt. John F. Weston, U. S. A., and asking my opinion of it. My opinion is that the secretary of war will do exactly what he says. As he is represented to me to be a man of his word."

UNKNOWN REPUBLIC FOUND.

Tcha-Pichon, in Manchuria, Has a Population of One Hundred Thousand.

According to a report published by the war office, the Russian troops made the discovery of a regularly formed republic in Manchuria, which has been in existence for upward of half a century, but probably unknown to the Russian powers, or, for that matter, to the majority of European travelers in the far east, says an Odessa correspondent of the London News. The Manchurian republic is situated in the basin of the upper reaches of the River Sungari, and south of Giron. It is known by the name of Tcha-Pichon, and numbered originally 10,000 citizens, the population is now about 100,000 souls. In the beginning the miniature republic was governed by a triumvirate, and subsequently by a president, Chan Yui Pao, who took all the executive powers into his own hands, and organized tribunals, trade guilds, taxes, etc., and regulated native industries and gold mining. A small republican army was created, and has been permanently maintained. In the battle fought by the Russians in the valley of the Sungari some two months ago the republican force of 500 men were completely routed, so that the Imperial Chinese troops. The existing president is a relative of the late Chan Yui Pao named Chin. The republic is under the protection of the Chinese authorities in the province of Giron. Since its foundation always shown a friendly toleration toward the Manchurian republic of Tcha-Pichon.

The existing president is a relative of the late Chan Yui Pao named Chin. The republic is under the protection of the Chinese authorities in the province of Giron.
